Listening to Poetry Jeremy Trabue 2025-09-01 A sad thing happens to most people somewhere between preschool and college: we unlearn our natural love of poetry, a love rooted in sound and surprise, pattern and play, discovery and delight. That loss is a tragedy that this book aims to reverse. Based on fifteen years of teaching, and dedicated to the belief that rigor and accessibility are compatible, *Listening to Poetry* takes nothing for granted, and builds students' confidence and skills from the ground up. It uses innovative, student-centered, and process-based approaches, including practical how-tos and skill-focused exercises for every subject covered. Poems don't have to be approached like riddles to be solved, codes to be cracked, or prisoners to be interrogated. There is a better way, and it starts right here. Don't take our word for it, though. Listen to students who've read this book: "I need to give full appreciation to this book for my new-found love of poetry... I have found myself a new hobby." "Before this book I was overwhelmed by poetry and felt I would never be artistic enough to create or analyze it. Now I feel very comfortable... and am excited to continue my appreciation for the art." "I have found my love for poetry from reading this book. I have learned how to read poetry and how to understand it."

Handbook of Implementation Science for Psychology in Education Barbara Kelly 2012-08-20 Implementation science is the

science of the effectiveness of research for real-world practitioners. This book is an indispensable, highly innovative and evidence-based resource aimed at utilizing research in psychology to improve all aspects of education, from individual teaching programs to organizational development. It addresses the widespread confusion and disappointment about the lack of effectiveness of real-world psychology and provides twenty-seven chapters offering proven policies, strategies and approaches for designing, supporting and improving interventions in schools. Collectively, the chapters go beyond the realm of psychology and education, tackling concerns about how to promote positive change in any context, covering topics from epistemology through statistics to examples of implementation approaches, frameworks and protocols. This book creates an immensely relevant body of information and evidence for any practitioner or organization facing the challenges of change. Essential reading for practitioners, policy makers, stakeholders and funders in psychology, education and beyond.

God at Play Daniel Soars 2025-07-01 The first comparative treatment of the topic of *līlā* in Hindu and Christian traditions, this volume explores what it means to consider divine and human action under the categories of play, wit, drama, grace, and compassion. *God at Play* presents a theological exploration of the multifaceted motif of *līlā* across diverse Hindu and Christian landscapes and its wide-ranging connections to divine and human creativity. Given its ubiquity in Hindu theologies and life-forms, *līlā* offers a rich comparative framework for exploring certain ways of understanding divine and human action as expressed in Hindu and Christian sacred texts, philosophical theology, and ritual practices. Though *līlā* is often interpreted simply as "play," the essays in this volume reflect a far richer semantic and conceptual field, ranging from spontaneity and gratuitousness, through joy and humor, to mercy and compassion. By focusing on the different contexts in which *līlā* is found in Hindu

traditions and resisting any uniform translation of the term, the contributors to this volume avoid the risk of using predominantly western or Christian categories to understand the Hindu other. The volume thus explores how *līlā* functions in a variety of distinctive philosophical, theological, and devotional ways across Hindu traditions, and listens for echoes in Christian understandings of the gratuitousness of the created order in relation to God. *God at Play* is a genuine experiment in deep learning across traditions. Each chapter reflects on what is learned by taking *līlā* as the category of comparison and invites the reader to think about what these conversations add, confirm, or change in relation to earlier twentieth-century scholarship on play—not least, in terms of what difference it might make to understand human life as an imitation and a participation in the divine life of a playful deity.
