Transformation and Empowerment through Education Raqib Chowdhury 2018-11-19 Transformation and Empowerment through Education challenges the normalisation of Western discourses as the optimal choice for empowering education. The book aims to reconstruct our relationship with education and employs contemporary theories in order to understand some of the most persistent phenomena in contemporary education and its role in our lives. Written by professionals with experience of a wide range of academic and institutional conventions and traditions, and from diverse ethnocultural backgrounds, this book effectively presents a global perspective on educational practices, both inside and outside the classroom. The range of topics covered includes equity, access, inclusivity, social justice, leadership and the internationalisation of teaching. This book, based on empirical studies using key methodologies, is ideal for academics and postgraduate researchers interested in critical pedagogy, educational studies and educational linguistics, as well as educators and policymakers around the world.

Student Quick Reference Success Guide to Writing in the APA 6th Edition Style Charles P. Kost II 2015-06-15 This book is designed to be a companion to the official *Publication Manual of the American Psychological Association, Sixth Edition*. This book highlights the key aspects that most undergraduate and graduate students will encounter when writing research papers for course work. Tribal Libraries, Archives, and Museums Lorie Roy 2011-10-10 Hundreds of tribal libraries, archives, and other information centers offer the services patrons would expect from any library: circulation of materials, collection of singular items (such as oral histories), and public services (such as summer reading programs). What is unique in these settings is the commitment to tribal protocols and expressions of tribal lifeways—from their footprints on the land to their architecture and interior design, institutional names, signage, and special services, such as native language promotion. This book offers a collection of articles devoted to tribal libraries and archives and provides an opportunity for tribal librarians to share their stories, challenges, achievements, and aspirations with the larger professional community. Part one introduces the tribal community library, providing context and case studies for libraries in California, Alaska, Oklahoma, Hawai'i, and in other countries. The role of tribal libraries and archives in native language recovery and revitalization is also addressed in this section. Part two features service functions of tribal information centers, addressing the library facility, selection, organization, instruction, and programming/outreach. Part three includes a discussion of the types of records that tribes might collect, legal issues, and snapshot descriptions of noteworthy archival collections. The final part covers strategic planning, advice on working in the unique environments of tribal communities, advocacy and marketing, continuing education plans for library staff, and time management tips that are useful for anyone working in a small library setting.
