Assessment in Special Education Roger Pierangelo 2009 &>This text

presents a uniquely practical approach to the topic of Assessment in

Special Education. The authors organize the material into a "real-world

story," by having each part and chapter of the text reflect the linear

chronology of the assessment process used in schools. Unlike other

books, this text is organized chronologically to present the overall

process in a "straight line" - a practical and useful pedagogy in itself for

the novice teacher. The text provides the practical tools necessary for a

new teacher to understand the process of assessment in schools and then

learn how to put it all together. It provides future special educators

comprehensive coverage of the latest tests and evaluation procedures for

all areas of exceptionality - for every age group - for students with mild,

moderate, and severe disabilities. HIGHLIGHTS OF WHAT'S NEW IN

THE THIRD EDITION: New chapter on Response to Intervention

(RTI) makes readers aware of the increased importance of multi-tiered

assessment in today's classrooms (see Chapter 17). New information

on Functional Behavioral Assessments (FBA) and Behavior Intervention

Plans (BIP) (see Chapter 11). New information on the various types of

speech and language disorders often seen by teachers of Special

Education (see Chapter 13). Provides readers with a more comprehensive

approach to the eligibility requirements necessary for a diagnosis to be

made (see Chapter 16). Updated and revised content for the discussed

areas of disability, including Learning Disabilities, Speech and Language

Disorders, Mental Retardation or Intellectual Disabilities, and Emotional

Disturbance

earlier work *Seeds of Contemplation*, this collection of sixteen essays
