[Research Anthology on Instilling Social Justice in the Classroom](#)

Management Association, Information Resources 2020-11-27 The issue of social justice has been brought to the forefront of society within recent years, and educational institutions have become an integral part of this critical conversation. Classroom settings are expected to take part in the promotion of inclusive practices and the development of culturally proficient environments that provide equal and effective education for all

students regardless of race, gender, socio-economic status, and disability, as well as from all walks of life. The scope of these practices finds itself rooted in curriculum, teacher preparation, teaching practices, and pedagogy in all educational environments. Diversity within school administrations, teachers, and students has led to the need for socially just practices to become the norm for the progression and advancement of education worldwide. In a modern society that is fighting for the equal treatment of all individuals, the classroom must be a topic of discussion as it stands as a root of the problem and can be a major step in the right direction moving forward. *Research Anthology on Instilling Social Justice in the Classroom* is a comprehensive reference source that provides an overview of social justice and its role in education ranging from concepts and theories for inclusivity, tools, and technologies for teaching diverse students, and the implications of having culturally competent and diverse classrooms. The chapters dive deeper into the curriculum choices, teaching theories, and student experience as teachers strive to instill social justice learning methods within their classrooms. These topics span a wide range of subjects from STEM to language arts, and within all types of climates: PK-12, higher education, online or in-person instruction, and classrooms across the globe. This book is ideal for in-service and preservice teachers, administrators, social justice researchers, practitioners, stakeholders, researchers, academicians, and students interested in how social justice is currently being implemented in all aspects of education.

Web-based Education Information Resources Management Association 2010-01-01 "This comprehensive collection offers a compendium of research on the design, implementation, and evaluation of online learning technologies, addressing the challenges and opportunities associated with the creation and management of Web-based applications and communities, instructional design, personalized learning

environments, and effective educational delivery"--Provided by publisher. Emerging Concepts in Technology-Enhanced Language Teaching and Learning Zou, Bin 2022-01-21 For years, language teachers have increasingly been using technologies of all kinds, from computers to smartphones, to help their students learn. Current trends in TELTL (technology-enhanced language teaching and learning), such as artificial intelligence, virtual reality, augmented reality, gamification, and social networking, appear to represent major shifts in the digital language learning landscape. However, various applications of technology to mediate language learning may be informed by reflecting not only on the present but perhaps more importantly on relevant insights from past research and practice. *Emerging Concepts in Technology-Enhanced Language Teaching and Learning* explores the recent development of the new technologies for language teaching and learning to gain insights into and synergy of the theories, pedagogies, technological design, and evaluation of TELTL environments for comprehending the trends and strategies of the new digital era as well as investigate the possibility of future TELTL research direction. The book includes trends shaped by contemporary issues such as the COVID-19 pandemic. Covering topics

such as digital education tools, L2 learnings, and sentiment analysis, this book serves as an essential resource for researchers, language teachers, educational software developers, administrators, IT consultants, technologists, professors, pre-service teachers, academicians, and students.

Cultural Awareness and Competency Development in Higher Education Leavitt, Lynda 2017-02-08 As the world becomes more globalized, student populations in university settings will continue to grow in diversity. To ensure students develop the cultural competence to adapt to new environments, universities and colleges must develop policies and programs to aid in the progression of cultural acceptance and understanding. *Cultural Awareness and Competency Development in Higher Education* is an essential reference book on the latest literature regarding multiculturalism in colleges and universities, focusing on administration and faculty implementation of culturally-aware curriculum to support the development of students' global competence. Featuring extensive coverage on a range of topics including social constructivism, co-curricular learning, and inclusive pedagogy, this publication is ideally designed for academicians, researchers, and students seeking current research on the inclusion of culturally diverse curriculums in higher education.

Service-Learning in the Computer and Information Sciences Brian A. Nejme 2012-06-07 Offering a truly global perspective, this book serves as a road map for service-learning partnerships between information science and nonprofit organizations. It introduces for the first time an essential framework for service learning in CIS, addressing both the challenges and opportunities of this approach for all stakeholders involved: faculty, students, and community nonprofit organizations (NPOs), both domestic and abroad. This volume outlines numerous examples of successful programs from around the world, presenting practical working models for implementing joint projects between NPOs

and academia.
