Indiana Libraries 1985

The Publishers Weekly 1912

Best Reference Books, 1986-1990 G. Kim Dority
1992 Aiming to be useful for identifying gaps in core reference collections, for filling out a particular subject area, for determining what to weed out and what to keep, and for checking for new editions and related materials, this bibliography should be a handy reference for all information professionals seeking to build up a quality reference collection. Approximately 1,000 entries have been culled from the more than 8,500 entries appearing in ARBA 1987-1991, covering reference titles with imprints of 1986-1990. Titles have been chosen on the basis of their usefulness to practising librarians. The lengthy reviews have been

updated and in some instances, completely rewritten to reflect new editions, with expanded coverage, additional citations to published reviews, and price changes.

Guide to Reference Books Robert Balay 1992
The 10th edition of the Guide (1986) is one of a small core of references essential to the day-to-day operations of Reference and Research Book News (it was enthusiastically reviewed in our May 1987 issue) and, we trust, to librarians and

researchers everywhere. This Supplement, the only one to the 10th edition, lists 4,668 titles that cover reference publishing from the end of December 1984 through the end of 1990. As in prior editions, the focus continues to be on reference works for scholarly research, but representative works intended for general reference are included as well. Member price, \$76.50.
