My People's Passover Haggadah Vol 2 David Arnow, PhD 2012-03-19 My People's Passover Haggadah Traditional Texts, Modern Commentaries In two volumes, this empowering resource for the spiritual revival of our times enables us to find deeper meaning in one of Judaism's most beloved traditions, the Passover Seder. Rich Haggadah commentary adds layer upon layer of new insight to the age-old celebration of the journey from slavery to freedom—and makes its power accessible to all. This diverse and exciting Passover resource features the traditional Haggadah Hebrew text with a new translation designed to let you know exactly what the Haggadah says. Introductory essays help you understand the historical roots of Passover, the development of the Haggadah,

and how to make sense out of texts and customs that evolved from ancient times. Framed with beautifully designed Talmud-style pages, My People's Passover Haggadah features commentaries by scholars from all denominations of Judaism. You are treated to insights by experts in such fields as the Haggadah's history; its biblical roots; its confrontation with modernity; and its relationship to rabbinic midrash and Jewish law, feminism, Chasidism, theology, and kabbalah. No other resource provides such a wide-ranging exploration of the Haggadah, a reservoir of inspiration and information for creating meaningful Seders every year. "The Haggadah is a book not just of the Jewish People, but of ordinary Jewish people. It is a book we all own, handle, store at home, and spill wine upon! Pick

up a Siddur, and you have the history of our People writ large; pick up a Haggadah, and you have the same—but also the chronicle of Jewish life writ small: the story of families and friends whose Seders have become their very own local cultural legacy.... My People's Passover Haggadah is for each and every person looking to enrich their annual experience of Passover in their own unique way."

The Sibyl and Her Scribes Anke Holdenried
2017-05-15 The Sibylla Tiburtina is a Latin prophecy attributed to a prophetess from classical antiquity. It concludes with an account of the End of History, involving the coming of the Antichrist and his battle with a Last World Emperor. Approximately 100 manuscripts, written between the mid-11th and the 16th centuries, survive which testify to the Tiburtina's immense popularity in the medieval West; as such the Tiburtina is a key text for understanding medieval apocalypticism and occupies an important place in the intellectual history of the Middle Ages. However, studies of the manuscripts and the history of the text have been largely neglected, in comparison with other

similar works, so little is currently known about who copied and read the prophecy. Dr Holdenried's research fills this gap. This study is based on an examination of all surviving manuscripts and includes an analysis of the textual material which accompanies the Tiburtina, a survey of titles and annotations, as well as research on variant texts (including several hitherto unknown). Modern historiography regards the Tiburtina solely as a vehicle for expressing contemporary political concerns triggered by crises thought to herald the End of the World. This book provides a much more varied picture and offers a new approach to the Tiburtina by placing it, for the first time, in the context of medieval traditions which saw Sibylline prophecy as independent, non-Christian evidence of Christ's life and as confirmation of His divinity. As is shown, these traditions had a major impact on the reception of the Tiburtina. The book concludes with a repertory of the manuscripts, together with brief

outlines of individual textual traditions as represented in groups of manuscripts, which will constitute a valuable reference source for other scholars.

Ruth: An Earth Bible Commentary Alice M. Sinnott 2020-06-25 This ecological reading of the book of Ruth takes into account the power which this short story holds, speaking to the whole person by engaging each reader's emotions, imagination, memory, and reason. Alice M. Sinnott demonstrates how the story of Ruth transcends geographical, spatial and historical boundaries by appealing to all concerned with the plight of the Earth. Sinnott highlights the ecological dimensions of the text

that scholars have ignored or dismissed in the past, and explores how the narrator gives voice to the way in which the Earth functions throughout the story. Integral to her reading of the text is a concern for Earth and matters such as food, famine, death, harvests, grain, day and night and members of the Earth community. Sinnott considers non-human characters as legitimate determining factors in the structuring of the narrative, and recognizes Earth and members of the Earth community as equally valid subjects. By identifying with these aspects of Ruth, Sinnott is able to read the text with new eyes; and by placing special emphasis in how the narrator depicts the natural world, she reinforces how subjects from that world emerge as integral components.

The Gestalts of Mind and Text Chanita Goodblatt

bridges literary studies and cognitive psychology to provide a unique contribution to the field of Cognitive Literary Studies. The book presents an

investigation of metaphor in poetic texts, adopting and developing empirical methods used by Gestalt Psychology, while integrating concepts informed by Gestalt Psychology. The title indicates an intellectual tradition, to be termed the Gestalt of the Mind, that begins with the Würzburg School of Psychology and its subsequent development into Gestalt Psychology, which provides a rich heritage for the field of Cognitive Literary Studies. The title further indicates an intellectual and creative tradition, to be termed the Gestalt of the Text, applied to various literary schools (Medieval, Early Modern, Modernist). Finally, the Gestalt-Interaction Theory of Metaphor delineates the potentialities for different types of readings of poetic metaphor. This book further makes three significant contributions: the first is the focus on the empirical investigation of metaphor in poetic texts; the second is the integration of the aspects of problem-solving, bidirectionality of metaphor, embodied cognition and the

grotesque, in analyzing poetic texts and verbal protocols; and the third is the focus on various literary traditions, spanning languages and periods. The goal of this book is to present an interdisciplinary study of the Gestalts of Mind and Text. This will be of interest to a varied audience, including cognitive psychologists, literary scholars, researchers in aesthetics, scholars of metaphor and those with an interest in intellectual history.
