development of manually operated, full automatic, and power driven aircraft machine guns George M. Chinn 1951 "The series of books entitled "The machine gun" was begun with the belief that the next best thing to actual knowledge is knowing where to find it. The research summarized within the covers of these volumes has been compiled by the Bureau of Ordinance, Department of the Navy, in order to place in the hands of those rightfully interested in the art of automatic weapon design, the world's recorded progress in this field of endeavor."--Vol. II, p. v.
