*Psychiatric Nursing* Norman L. Keltner 1999 Psychiatric Nursing focuses on the therapeutic skills expected of today's psychiatric nurse. This book uses the simple and unique model of psychotherapeutic management, which is composed of three components: 1) The Therapeutic Nurse-Patient Relationship provides the nursing student with the tools necessary for effective communication with individual patients, groups of patients, families of patients, and patients from various cultural backgrounds; 2) Psychopharmacology offers information on the most important psychotropic drugs used in psychiatry today, including important nursing responsibilities associated with their administration; and 3)

Milieu Management explores the importance of developing the therapeutic environment to maximize its contribution to patient care.

**Maternal and Child Health**

**Nursing** Adele Pillitteri  
2013-11-25 Adele Pillitteri aims to ensure that today's students have a technical understanding, without losing the importance of compassion in their role as a nurse. The text presents pediatrics and maternity as a continuum of knowledge, taking a holistic approach and viewing

maternity and pediatric content as a family event. The text links theory closely with application that helps students gain a deeper understanding of content and be better prepared to practice in their careers."-- Provided by publisher.

**Maternal & Child Health**

**Nursing** Adele Pillitteri 2010  
Growing research shows that many children from immigrant and refugee families are not doing well in school, due in part to linguistic and cultural disadvantages. Teaching dual-language learners requires cultural sensitivity, an understanding of language acquisition, and intentional teaching strategies. Combining research and techniques, this resource helps early childhood educators support dual-language learners as they develop the skills necessary for school readiness and success.
