You decided you are ready to sit for the Certification Exam for Infection Control (CIC)! Ok... So... now what? You pick up all three

telephone-book-sized parts of the APIC TEXT and wonder if maybe there's a different way to study - other than reading all of these from cover to cover. WELL THERE IS! The truth is that there are essential parts of each of the chapters in the APIC TEXT. With a few additional materials, and some efficient ways of studying, it's not totally necessary to read everything. After a quick, colorful story of how the author failed the first attempt at the CIC exam, and then passed with flying colors, this short eBook goes over the methods that the author used to study - what did and did not work - and why. Also, bonus pages are included, such as tips for remembering types of bacteria, 10 BONUS Practice Questions, and checklists for studying as efficiently as possible. Additional resources are also listed, with links for reviewing them, if interested. Thank you for considering this short but useful eBook!

Negotiation, Decision Making and Conflict Management Max H. Bazerman 2005 This authoritative and comprehensive collection presents outstanding research on negotiation and conflict resolution that views negotiation as a multi-party decision making process. Negotiation and conflict resolution are conceptualised as a decision making activity, where the individual perceptions of each party and the interactive dynamics of multiple parties are critical elements.

Buyers' Guide for the Health Care Market 1997

Saunders Infection Control Reference Service Elias Abrutyn 2001 Collected into one source, this text represents the most up-to-date and officially endorsed guidelines of infection control, gathered together and organized for easy reference and use in any healthcare facility. The introductory chapters provide essential information on epidemiology, as well as background concerning the

different types of guidelines for control and how they are used. The next section presents broad coverage of infection control and the key components in an infection control program. Following this foundation, the guidelines themselves are presented in sections that focus on the areas of: Facility Size or Location of Service; Site of Infection; Selected Clinical Problems; and Facility-Based Guidelines. Experts in infection control offer a "guide to the guidelines" with their succinct interpretations and critiques of each guideline, providing insight into what works, what doesn't, and why. Where applicable, the guidelines are reproduced at the end of the chapter either in full or in extract format.

Sheehy's Manual of Emergency Care Emergency Nurses Association 2005 The new 6th edition of Sheehy's trusted emergency care resource - now developed in conjunction with the Emergency Nurses Association - features complete coverage of the essentials emergency nurses need to know. Important discussions focus on basic and advanced life support, intravenous therapy, medical emergencies, trauma emergencies, and emergency care for special populations. Each condition commonly seen in the emergency setting is thoroughly addressed, from signs and symptoms, to diagnosis, treatment, developmental considerations, patient education, and more.

New chapters and updated material make this resource a must-have for current practice. Complete, up-to-date, practical information is essential for both clinical practitioners and nursing students. Thorough discussions of each condition include signs and symptoms, diagnosis/diagnostic testing, treatment/interventions, age/developmental considerations, and patient/family education/discharge instructions. Compact, portable size makes it ideal for on-the-spot reference in any setting. Developed in conjunction with the Emergency Nurses Association, featuring expert contributions from respected emergency personnel. 13 new chapters cover:

- Communication in the Emergency Department
- Cultural Diversity Intrafacility and Interfacility Patient Transport
- Emergency Operations Preparedness
- Triage Patient Assessment
- Weapons of Mass Destruction
- Pain Management
- End of Life Issues for the Emergency

Nurse Complementary and Alternative Therapies Airway Emergencies Elder Trauma Substance Abuse Emergencies Updated content includes decontamination and conscious sedation procedures. An updated list of website references now includes pertinent resources for emergency personnel. Consistent format makes it easy to quickly retrieve information in an emergency setting - each chapter discussion includes a list of conditions and procedures, brief introductory statements, discussion of each condition, key procedures, and references. Over 400 updated photos and illustrations clarify important concepts.
