**Educating Multilingual Learners, Second Edition** Carine Strebel 2026-02-24 An updated edition offering a framework of best practices for the K-12 educators of the 5.3 million US students who are multilingual language learners In this wholly updated second edition of Educating Multilingual Learners, the authors streamline their easy-to-use protocols for teachers of multilingual learners so that they

apply to students who are learning through any new language in any PreK–12 classroom context. The authors present the new, teacher-friendly Teaching All Subjects, Language, and Literacy (TASLL) Framework that can be implemented flexibly to meet the needs of multilingual learners in the classroom. Drawing from the latest research and culturally relevant pedagogy, this new edition illuminates for teachers why and how to use the full linguistic repertoire of multilingual learners. It also encourages a collaborative approach to classroom instruction, recommending simple first steps to educator partnerships. Throughout the book, the authors return to four case study students of different ages, backgrounds, and levels of language proficiency to show the TASLL Framework in action. Pre-service and in-service teachers will find this an invaluable resource for classroom teaching of multilingual language learners.

*Educating English Learners* Joyce W. Nutta  
2020-07-29 In *Educating English Learners*, Joyce W. Nutta and her colleagues offer practical tools for helping schools and teachers successfully integrate English learners into mainstream classrooms. Drawing on the One Plus model presented in their award-winning book,

Preparing Every Teacher to Reach English Learners, the authors now turn their attention to the needs of K-12 teachers who typically have two or three English learners in their classrooms. English learners are not a homogenous group, and the challenges they face vary tremendously. Nutta and her colleagues present protocols and case studies to help pre-service and in-service teachers understand the needs of English learners in their classrooms and differentiate instruction and assessment accordingly. Woven throughout the book are the stories of Gero, Edith, Tasir, and Edgar, four case study students of different ages, backgrounds, and levels of English proficiency. The authors show how the protocols they provide can be applied to adapt sample lessons for students like these, across a range of grade levels, subject areas, and pedagogical approaches. Finally, the authors show how the system can be applied school-wide for a collaborative approach to meeting English

learners' needs.
