Parental Marital Functioning Following TBI in an Adolescent/young Adult Child Ann Marie Thompson 1996

**Positive Psychology** Alan Carr 2013-09-05 Remediating deficits and managing disabilities has been a central preoccupation for clinical psychologists. Positive Psychology, in contrast, is concerned with the enhancement of happiness and well-being, involving the scientific study of the role of personal strengths and positive social systems in the promotion of optimal wellbeing. Alan Carr's Positive Psychology has become essential reading for anyone requiring a thorough and accessible introduction to the field. This new edition retains all the features that made the first edition so popular, including: accounts of major theories and relevant research learning objectives chapter summaries research and personal development questions suggestions for further reading measures for use in research glossaries of new terms. The book has also been completely updated to take account of recent research and major advances, and includes a new chapter on Positive Psychotherapy, an extended account of research on character strengths and virtues, and a discussion of recent ground-breaking research on emotional intelligence. This new edition of Positive Psychology will prove a valuable resource for psychology students and lecturers, as well as those involved in postgraduate training in related areas such as clinical psychology, social work, counselling and psychotherapy.

New Psychological Tests and Testing Research Lydia S. Boyar 2007 Psychological testing has grown exponentially as technological advances have permitted it to and societal complexities have necessitated its growth. Psychological testing or psychological assessment is a field characterised by the use of samples of behaviour in order to infer generalisations about a given individual. By samples of behaviour, one means observations over time of an individual performing tasks that have usually been prescribed beforehand. These responses are often compiled into statistical tables that allow the evaluator to compare the behaviour of the individual being tested to the responses of a norm group. The broad categories of psychological evaluation tests include: Norm-referenced, IQ/achievement tests, Neuropsychological tests, Personality tests, Objective tests (Rating scale), Direct observation tests, Psychological evaluations using data mining. New and important research is presented in this book.

**Psychological Problems of Ageing** Robert T. Woods 1999-08-03 The principles and practice of the clinical psychology of the ageing and the psychological treatment and care of the elderly are described for students and practitioners in clinical psychology, psychiatry and psychotherapy.

*Strengthening Research Methodology* Richard R. Bootzin 2006 This volume explores and demonstrates how measurement, methodology, and evaluation in psychology have been influenced by preeminent scholar Lee Sechrest. Researchers present their recent studies and acknowledge the role Sechrest has played as a mentor and leader in the field.

Nursing Diagnosis Handbook Betty J. Ackley 2002 This reference helps nurses and students correlate diagnoses with information about clients based on assessment findings, medical and psychiatric diagnoses, and treatment plans. Introductory chapters explain how to use assessment findings, evidence-based research, and other key data to reach a NANDA-approved nursing diagnosis. The book provides care plans for all NANDA-approved diagnoses, including nursing outcomes; offers an alphabetical list of some 1,200 disorders, procedures, states, and symptoms with suggested NANDA-approved nursing diagnoses; and presents nursing diagnoses arranged by domain, class, and diagnostic concept according to NANDA's new taxonomy. The editors teach nursing at Jackson Community College. Annotation copyrighted by Book News, Inc., Portland, OR

**Handbook of Clinical Psychology of Ageing** Robert T. Woods 1996-07-17 This handbook focuses on the

key areas in the psychology of ageing: Problems associated with later life development and change Emotional problems and depression associated with loss of physical health and with losses and changes in the areas of social relationship and personal identity The important clinical context of service delivery, including community care, family care-giving and institutional aspects A broad range of therapeutic orientations, including cognitive-behavioural, psychodynamic, and family therapy approaches. "It is hard to do justice to the breadth of material in this book...I have found the reading of it both stimulating and enlightening, despite believing that I was familiar with most of the topics, and have no doubt that I will be using it for reaching and reference purposes into the next millennium... if there is one book a Clinical Psychologist working with older people needs...this is it!" Steve Boddington, *International Journal of Social Psychiatry*

*Handbook of Child Health Assessment* Paul Karoly 1988-05-13 This handbook deals with methods of assessing health status in children on all levels - physical, psychological, intellectual, temperamental, familial and educational. It also presents discussions of techniques used for specific health problems, and for screening and prevention.

*Preventing Illness Among People With Coronary Heart Disease* Robert M Kaplan 2012-11-12 Coronary artery disease (CAD) is the leading cause of death and illness in the United States, and though much progress has been made in reducing cardiac risk factors, obesity and diabetes mellitus are on the rise. *Preventing Illness Among People With Coronary Heart Disease* explores recent advances in drug treatments for CAD risk factors and how these interventions can play an important role in improving the length and quality of patients' lives by addressing health behaviors and the need for behavioral change. This advanced text shows readers how mental health problems such as anxiety, depression, and alcoholism interplay with patients' physical health and how certain interventions can improve patients' outlook and health status. *Preventing Illness Among People With Coronary Heart Disease* brings together researchers from a variety of disciplines to address subjects critical to secondary and tertiary preventive care for patients with coronary heart disease (CHD). This outstanding volume concentrates on studies from three major areas to help primary care practitioners and family practice physicians intervene successfully with risky behaviors among their patients prone to or afflicted with coronary artery disease. These include the effects of heart disease on patients' mental health and quality of life and the role of formal behavioral interventions in promoting health among patients with heart disease. Readers of *Preventing Illness Among People With Coronary Heart Disease* acquire a solid understanding of the factors influencing CAD patients' behavioral patterns and mental states and how the prevalence of CAD can be reduced. Among the vital topics readers learn about are: the effects of alcohol upon CHD and blood pressure CHD risk factors in the elderly exercise interventions coping strategies and cardiac illness strategies for assessment and prevention smoking and cardiovascular disease *Preventing Illness Among People With Coronary Heart Disease* seeks to provoke greater discussion and scientific activity among professionals in the field to improve understanding of the interplay of mental health, physical health, and behavioral medicine for patients with heart disease. Primary care practitioners, family practice physicians, medical students, and others interested in preventive cardiology, preventive care, or chronic disease management will learn about recent advances in research and treatment approaches that can be applied immediately to daily practice. *Dealing with Challenges in Psychotherapy and Counseling* Christiane Brems 2000 This unique book provides exactly such important schemata to assist both novice and experienced practitioners in responding effectively and confidently."--Jacket.
